SUBJECT: General Rate Adjustment to Port Freeport Tariff No. 005

Staff recommends a <u>5%</u> General Rate Adjustment to Port Freeport Tariff No. 005 to be effective October 01, 2023.

Port Freeport's last tariff adjustment of <u>5%</u> took effect October 01, 2022. Despite an 8.48% change in CPI YOY (see DELTA APR 21 – APR 22 above), staff recommended a 5% adjustment in 2022 because Port Freeport made a 5% adjustment to the tariff in 2021, and back-to-back years of 5% adjustments was

not a circumstance that Port Freeport's customers were accustomed to. Staff also recommended a multiyear approach to ensure that subsequent tariff adjustments did not lag too far behind CPI. If a 5% adjustment is approved by the Port Commission, the lag of 2.51% will be recovered in future adjustments.

Port Freeport is a member of the Gulf Seaports Marine Terminal Conference. The conference meets annually and suggests minimum rates for dockage, security on dockage and security on wharfage for member Ports. Below is a table of the recommended rates by GSMTC and the proposed rates for comparison.

RE: SCP Grant Applications for Gate 4 Access Widening Project and the East 5th Street Reconstruction Project

We have two projects for your consideration:

The Gate 4 Widening Project: Port Freeport will be offering a match of 25%.

Total Construction amount: \$1,200,00 Grant Request Amount: \$900,000 Port: \$300,000

This project will widen the two-lane road from the east side of the guard house to the intersection of FM1495 and SH36. This added capacity will increase cargo through-put, lower waiting times, and enhance safety for the driving public.

The 5th Street Reconstruction Project: Port Freeport will be offering a match of 25%. Total Construction amount: \$4,800,000 Grant Request Amount: \$3,600,000 Port: \$1,200,000

This project will rebuild 5th Street and replace the current 6" of concrete with 18" of reinforced concrete that can handle containers, RORO, breakbulk and project cargo, and enhance safety for the driving public. This new route will also take much-needed pressure off gates 8 and 4 by adding a much-needed new route for cargo going to and from Velasco Terminal.

Mike Wilson Director of Economic Development and Mobility

SUBJECT: Vulcan Construction Materials

On May 24, 2023, Port Freeport received the enclosed letter from Vulcan Construction Materials.

ATTN: Jason Miura, Director, Business & Economic Development, Phyllis Saathoff, Port Director, and Port Freeport Commissioners

In 2021, Vulcan Materials Company worked with the Port Freeport and the City of Freeport to permit and erect a portable asphalt plant on property Vulcan has leased for a rail terminal at the Port Freeport. This plant was erected to supply hot mix asphalt to the TXDOT Brazoria - Highway 36 project, which, at the time, Vulcan agreed to only apply for a single project permit with the TCEQ. This was done to give the City of Freeport and the Port Freeport ample time to understand any concerns that may arise with this new business, before applying for the TCEQ standard asphalt permit. Test batches began running through the plant in March of 2023, followed by hot mix asphalt being supplied to the TXDOT Brazoria - Highway 36 project during April of 2023 with no reported issues to date.

I am now writing this letter to the Port Freeport and its Port Freeport Commissioners to formally request its consent and support in Vulcan Materials Company submitting for the TCEQ standard asphalt permit. This permit would allow Vulcan to supply multiple projects simultaneously. This would include, but not be limited to, several more projects in the Brazoria County area, City of Freeport projects, as well as any projects the Port Freeport may have in the future. The expanded ability to furnish hot mix materials in this market would imply supplying more aggregates by rail through the existing facility, potentially causing further demand for expanded property size and greater material storage area for the facility and asphalt plant.

We look forward to your reply supporting Vulcan Materials Company's request to apply for the TCEQ standard asphalt permit and approving the operation of the plant under the TCEQ standard asphalt permit as a "Permitted Use" under the lease. If you have any questions, please contact me using the information in the signature block.
